

FREDI IRAWAN

INFORMATICS STUDENT | SOFTWARE DEVELOPER

Malang, East Java, Indonesia | +62 896-1515-5147 | osdfredi241@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Informatics student and software developer with hands-on experience across web and mobile development, GIS data preparation, analytics dashboards, and computer vision research. Built practical academic and independent projects using React, TypeScript, Flutter, Django, Python, Firebase, and QGIS. Currently pursuing a Bachelor's Degree in Informatics with a growing focus on software engineering and computer vision.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Dart, PHP, HTML, CSS
Frameworks: React, Flutter, Django, Laravel, Tailwind CSS, FastAPI (fundamentals)
Data & AI: Data analytics, computer vision, YOLO, D-FINE, ARIMA, CSV processing
GIS & Cloud: QGIS, Web GIS, Firebase, Firestore, SQLite
Tools: Git, GitHub, Vite, Google Colab, VS Code

EXPERIENCE

- IT / Web Development Intern - PT Digtive Global Media**Feb 2026 - Jul 2026
 - Contributed to web systems, analytics, GIS data preparation, testing, and technical documentation across internal and public-facing initiatives.
 - Supported OJS journal platforms through content and metadata organization, responsive interface review, navigation, multi-journal configuration, and usability checks.
 - Prepared GIS-ready UMKM datasets by validating records, handling duplicates, normalizing categories, and organizing location data.
 - Worked on CSV upload, validation, cleaning, URL normalization, dashboards, visualization, and ARIMA time-series preparation for Wearemania analytics.
- Software Development Intern - PT Berkah Teknologi Global**Aug 2022 - Jan 2023
 - Completed a remote vocational internship focused on frontend and backend fundamentals using PHP, Laravel, CSS, and Tailwind CSS.
 - Implemented authentication, authorization, session, and cache concepts through focused web development exercises.

SELECTED PROJECTS

- Citrus Detection & Counting** | React, TypeScript, FastAPI, Python
Developing an academic research interface for citrus fruit detection and counting while comparing YOLO11s and D-FINE-S under a reproducible evaluation protocol.
- MentorRide** | Flutter, Dart, Riverpod, Firebase
Built a motorcycle maintenance application concept for service scheduling, maintenance history, component tracking, and expense records.
- Bandulan Warung GIS** | QGIS, Leaflet, JavaScript
Built an interactive Web GIS for exploring local businesses and spatial layers in Bandulan, Malang.
- Wearemania Traffic Forecasting** | Django, Python, CSV, ARIMA
Developed a dashboard workflow for editorial traffic data validation, visualization, and exploratory ARIMA forecasting.

EDUCATION & TRAINING

- Bachelor's Degree in Informatics - Institut Teknologi dan Bisnis Asia Malang**2023 - Present

Degree in progress; current focus includes software engineering and computer vision.
- Computer and Network Engineering - SMK Negeri 11 Malang**

Technical foundation in networking, computer systems, programming fundamentals, and web development.
- Rakryan Digital Academy - Industry Class**2020 - 2021

Front-End, Back-End, and Android Development training; completed an early Java OOP mini-project.

SELECTED CREDENTIALS & TRAINING

- Computer and Network Engineering Competency Certificate (Very Competent)
- Azure AI Fundamentals Preparation
- Introduction to Data Science and Microsoft Fabric
